Inquired about progress on Project Milestone 2

Shruthi explained requirements for README.md in github project repository
        Needs to have project title, description, architecture description
        As code is developed, also needs to have instructions on how to run code
        Also needs to list dependencies (specific heading)
        https://www.markdownguide.org/cheat-sheet/

Use case diagrams should use lucidChart (listed under week 3 in Canvas)

Shruthi clarified expectations for project milestone 2:
        Each need a couple sentences on contributions
        Link or screenshots for recent commit

Explained requirements for committed files
